USEFUL RECOMMENDATIONS

Do not overload above the specified maximum load, do not jump on it, do not hit with sharp objects. The product must be secured to the ground with screws driven into the dowels included in the product. When used as a flower pot, an impermeable foil should be put on the inside, up to the one third it should be filled with a 1:1 mixture of expanded clay and gravel, then filled with earth. In winter, when used outdoors, protect the ground from freezing.
