

XL Palisade Edge

The **XL palisade edging** is an element of garden accessories with many applications, resembling three palisades arranged next to each other. It will work well as **edging paths and alleys**, as well as **elements of green architecture** and a **finishing element for terraces or stair steps**.

It has an apparent joint and **micro-bevel**, which constitute its **innovative, minimalist form**, and this fits perfectly with the **modern surroundings of the house**. It perfectly complements the arrangement using other Bruk products with the **Royal surface** – fencing blocks and stair steps.
