

CLARO Flat cap

Claro caps are elements used to **finish** walls, posts and foundations made of blocks from the Claro collection. In addition to their decorative function, they serve an important **protective function**. They **protect walls and posts** against the harmful effects of the weather conditions. They come in **two formats: 80x40x8.5 cm and 80x20x8.5 cm**.

Fences made of concrete blocks are characterized by **high durability and simple assembly**, and thus – **great time savings**. Their high aesthetic values result from the production technology used – the concrete vibropressing process ensures high precision of built.
