

## STRUCTUR Flat cap

This is a **finishing element** for walls, foundations and posts, which is both **decorative and protective** of fencing structures against snow, rain or frost. Its smooth surface allows the **free drainage** of water, whereas the split face ensures the **visual compatibility** with the split face elements of the fence wall.

The flat cap Structur is available in **4 sizes: 43cmx43cm (split on 4 sides), 27cmx50cm (split on both sides), 27cmx43cm (split on 4 sides), 43cmx50cm (split on both sides)**. The colors and dimensions are matched to hollow wall blocks and hollow post blocks of the Structur collection.

## Color chart

### Splitted

white

anthracite

sand

gray

**Attention: Colours with a phone icon: Only on order product.**

## Recommendations and information:

Installation on **frost-proof glue**. Sealing with **silicone** necessary. Installation after a **minimum of 2 days** from the time of filling the walls and pillars with concrete. It is recommended to **impregnate** with an agent preventing the accumulation of dirt and moss fouling after a minimum of 30 days from the end of assembly works.

If unevenness is found, **grind the upper surface** of block to ensure that the **caps adhere perfectly to the blocks underneath them**.

Recommended for use with Structur fencing blocks.

**Drips:** none

**Production:** made with the use of the one-ply technology and splited

**Attention: For technological reasons pallet's weight may change.**

## Shapes and dimensions

## Product details

**Number of elements in the system:** 1
