

# STRUCTUR Double-slop cap

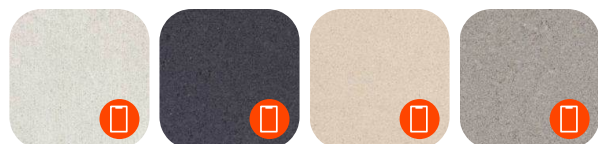

The **double-slope cap** is an element crowning the fence. It may be used for **finishing fence walls, bases or posts**. The cap serves as a decoration and protection: it **secures** structures made of split face hollow blocks against the **adverse atmospheric conditions**. Its surface enables the drainage of water.

The cap is available in **two sizes and colours** matching the fence wall and post elements of the collection of split fence systems by Bruk.

## Color chart

### Splitted

white

anthracite

sand

gray

**Attention: Colours with a phone icon: Only on order product.**

## Recommendations and information:

Installation on **frost-proof glue**. Sealing **with silicone** necessary. Installation after a **minimum of 2 days** from the time of filling the walls and pillars with concrete. It is recommended to **impregnate** with an agent preventing the accumulation of dirt and moss fouling after a minimum of 30 days from the end of assembly works.

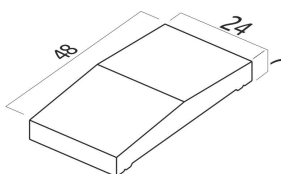

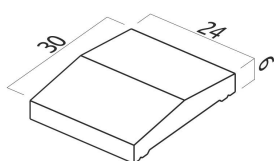

Recommended for use with Structur fencing blocks.

**Drips:** none

**Production:** made with the use of the one-ply technology and splitted

**Attention: For technological reasons pallet's weight may change.**

## Shapes and dimensions

# Product details
