

Harmony Stool

The Harmony Stool is an intriguing form and modern material. Architectural concrete gives the stool a **raw elegance**, and the unusual shape allows you to create **distinctive arrangements**. After turning over, it can be used as a **flower pot**. An element of small architecture to be used **alone and in a set** – also with a Harmony stool with backrest. For those who like to **stand out with modernity**. **100% handmade!**

Recommendations and information:

Do not overload above the specified maximum load, do not jump on it, do not hit with sharp objects. When used as a flower pot, an impermeable foil should be put on the inside, up to the one third it should be filled with a 1:1 mixture of expanded clay and gravel, then filled with earth. In winter, when used outdoors, protect the ground from freezing.

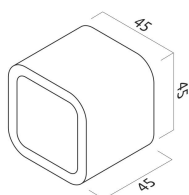

Manufacturing technology: architectural concrete casting

Minimum concrete grade: C30 / 37

Mounting dowels near the base corners: no

Attention: For technological reasons product's weight may change.
