

MEGA Palisade

Large format, modernity and simplicity. MEGA concrete palisade is a solution for spaces dominated by modern style. It will create a minimalist flower bed, separate the pavement from the lawn, and help organize a fashionable space around the house. The large format in two sizes (20×80 cm and 40×80 cm) will work well in any modern setting.

Take a holistic approach to your space and consider combining the MEGA palisade with other products that share a similar style and color scheme: Claro Pot and Fence.
